WEEK 1 - TEACHER PLAN

Rice Krispie Snack Shop

Teach a small batch first. Bring a larger prepared batch for classmates to buy with play money on a later day.

Before the first lesson

Gather crispy rice cereal, marshmallows, butter, measuring cups, a bowl, spatula, lined pan, wrappers, pretend quarters, a tray and these pages. Check ingredient labels, student food needs and your school's food guidance. Adults handle heat and cutting. Keep food handling and money handling separate.

Day 1 - Prepare & explore jobs (about 30 minutes, plus cooling)

5 min: Students choose a task, practice asking for help, wash hands and set up.
15 min: Measure cereal, watch the adult melting step, mix and press with the pictured directions on page 2.
10 min: Clean, wrap cooled portions when ready, and choose a preferred job. Waiting for cooling may extend the session. If classroom heating is unavailable, the adult demonstrates with prepared ingredients or a finished batch.

Day 2 - Invite classmates as customers (about 30 minutes)

Bring 12-24 consistently sized, individually wrapped portions, adjusted to your class size. Give each customer a pretend quarter. Set the menu to **Rice Krispie treats, 25 cents, one item per order**. Put menu/tickets at one end of the library table, wrapped stock in the middle and play money at the cashier end.

Serve 2-3 classmates, pause and rotate jobs. Repeat for three short rounds so everyone tries each responsibility. A classmate points or reads, places an order, gives the worker a ticket, pays and says thank you. Use one shared classroom device, or use the paper tickets entirely offline.

Transition Town setup for this pilot

Teacher tools → Use Rice pilot → check the practice stock. Add student codes and choose the active worker before each turn. Use **Classmates: place an order**, then let workers complete the pictured checkout. Practice completion changes practice stock only. Physical stock changes only after a separate teacher-confirmed handoff.

Finish with: "Which job did you like?" and "What help worked for you?" Record what you observed on page 6. Save/print browser records before clearing classroom browser data.

DAY 1 - PICTURE PREPARATION CARDS

Make the teaching batch

No oven needed. Adult heat is required for melting. Use these cards with the teacher, not as unsupervised cooking directions.

Ingredients: 6 cups crispy rice cereal + one 10 oz package of marshmallows + 3 tablespoons butter. Use a 13 x 9 inch pan. Adult handles hot mixture and cutting.

1. Wash & get ready

Wash hands. Clean your space. Ask for a job.

2. Measure cereal

Fill one cup. Pour it. Count six cups with a partner.

3. Adult melts

The adult melts butter and marshmallows. Watch from your place.

4. Mix with help

Add cereal. Stir with the adult when it is safe.

5. Press in the pan

Use the spatula. Gently press the mixture flat.

6. Cool & wrap

Wait until cool. The adult cuts. Wrap one treat. Clean your place.

Adult: melt butter on low heat, stir in marshmallows, then remove from heat. Mix in cereal. Press into the prepared pan, cool and cut. Store covered; use within two days at room temperature.

DAY 2 - JOBS & SUPPORTS

Everyone tries every job

Write the three student names/codes below. Keep their individual supports as jobs rotate.

After 2-3 customers	Customer service	Stock / packing	Cashier
Round 1	Worker A	Worker B	Worker C
Round 2	Worker C	Worker A	Worker B
Round 3	Worker B	Worker C	Worker A

A: _____ B: _____ C: _____

CUSTOMER SERVICE

Greet the customer. Point to or read the menu. Listen to the choice and confirm the ticket.

“What would you like?” “One treat, please?”

STOCK / PACKING

Match the ticket picture. Put one wrapped treat in one order space. Check with the customer.

“Is this your order?” “Please check with me.”

CASHIER

Match one pretend quarter to 25 cents. Check exact payment or practice change with teacher support. Thank the customer.

“Twenty-five cents, please.” “Thank you.”

Adapt the task, keep the job. Beginning numbers: one picture, one object, one quarter, one space; accept pointing or partner counting. Developing money skills: match coin pictures and touch/count payment. Independent readers: read tickets, confirm totals, explain each job; later try a $1 payment and 75 cents change.

PHOTOCOPY FOR THE TABLE

This week: Rice Krispie treats

Pretend-money classroom shop. One treat costs one quarter (25 cents).

1 treat = 25 cents

Point, speak or use your device:
“I would like one treat, please.”
“Thank you.”

ORDER TICKET Customer # _____

Rice Krispie treat | Quantity: 1

Price: 25 cents | Total: 25 cents

Play payment: _____ Change: _____

Received ___ Packed ___ Thank you ___

ORDER TICKET Customer # _____

Rice Krispie treat | Quantity: 1

Price: 25 cents | Total: 25 cents

Play payment: _____ Change: _____

Received ___ Packed ___ Thank you ___

ORDER TICKET Customer # _____

Rice Krispie treat | Quantity: 1

Price: 25 cents | Total: 25 cents

Play payment: _____ Change: _____

ORDER TICKET Customer # _____

Rice Krispie treat | Quantity: 1

Price: 25 cents | Total: 25 cents

Play payment: _____ Change: _____

Received ___ Packed ___ Thank you ___

Cut out the tickets, or have classmates complete them on the screen. Print a fresh menu from Teacher tools whenever you change products or prices.

BEGINNING COUNTING & COMMUNICATION

One item. One place.

Point or tap each picture. A partner can say the number with you. No reading or numeral naming is required.

Match one wrapped treat

Put one wrapped treat here

ONE

Match one quarter (25 cents)

Put one play quarter here

25¢

HELP

Please help me.

SHOW ME

Please show me.

BREAK

I need a break.

DIFFERENT JOB

I want a different job.

Point, speak or use a device. Tell your teacher what help you need.

What I will look for: _____
Pictures / counting / reading / communication support: _____

Student/code: _____ Job to try first: _____
What I will look for: _____
Pictures / counting / reading / communication support: _____

Keep the weekly routine

1. Prepare and explore a job. **2.** Teacher brings the classroom batch.
3. Classmates order with pretend money. **4.** Rotate every 2-3 customers.
5. Students choose a preferred job and identify useful help. **6.** Observe, review and plan the next small step.

Future menu ideas: Dum-Dums: practice wrapped-item stock and checkout. Cocoa: let an adult prepare and handle the drink; students can practice with empty cups. Use another inexpensive packaged snack when a closer fit is needed. Select the nearest picture model and change the label.

In Transition Town, past tickets and sales keep their original product, week and price. Switching the menu keeps saved records. Each device has its own activity records; export a backup before clearing browser data.
