Answer Key & Video Links

Ten listening blanks in playback order | No word bank

Print page 1 for each student. Each numbered item is a spoken transcript excerpt with one word or number removed. Play the clips below in order. Use the exact versions linked here.

1. CDC: Fight Germs. Wash Your Hands! (3:00)

https://www.youtube.com/watch?v=eZw4Ga3jg3E

2. USDA: The Importance of Cleaning and Washing During Food Preparation (2:51)

https://www.youtube.com/watch?v=JFq4sWTzTA8

3. USDA: How Does Cross-Contamination Happen? (3:12)

https://www.youtube.com/watch?v=Xm_X5LJmrbw

All three clips: 9:03. Brief pauses can bring viewing to about 10 minutes.

Open the three-video sequence

ANSWER KEY

1. disease
2. soap
3. 20
4. water
5. poultry
6. brush
7. snack
8. refrigerator
9. utensils
10. separate

USE DURING THE VIDEO

Give students a moment to read the next line before playback. Pause or replay after a target sentence if writing speed requires it. Accept 20 or twenty for item 3. Keep the answer key out of student view.

AFTER VIEWING

Connect the lesson to the treats: wash hands, prepare a clean and sanitized work area, keep utensils clean, and protect finished food from hands or objects that could contaminate it. An adult handles sanitizer and hot bowls.

NARRATION SOURCES

CDC - official Fight Germs. Wash Your Hands! transcript

USDA Food Safety - Cleaning and Washing video (Part 2)

USDA Food Safety - Cross-Contamination video (Part 3)

Federal educational narration credited to CDC and USDA. Blanks added for classroom listening practice.
