

TRANSITION TEAM ■

Budget Battle

GAMES ACTIVITIES

HOW TO USE THIS ACTIVITY

- Students receive the same pretend monthly income and choose how to cover required expenses. The goal is to finish with a nonnegative balance and explain choices.
- This is a decision-making game, not a test of one 'perfect' budget.

Pretend take-home income: \$1,800. Required: housing \$650, utilities \$180, phone \$80, transportation \$250, groceries \$300. Money left = _____.

Choice cards: streaming \$20; restaurant \$35; emergency savings \$75; new shoes \$60; entertainment \$40; extra groceries \$30.

Challenge: Choose at least one savings option and stay at or above \$0.
