

TRANSITION TEAM ■

Career Pathway Starter Guide

CAREER EXPLORATION

HOW TO USE THIS ACTIVITY

- Use this with a student who already has a career area in mind but needs help turning the idea into a plan.
- Choose one career area. Read the pathway overview. Circle jobs that sound interesting. Complete the Next Steps page.

Career areas to explore: skilled trades, welding, engineering, healthcare, veterinary/animal care, cosmetology, sonography, automotive, information technology, culinary, education/childcare, public safety, business, and HVAC/electrical/plumbing.

For each career area, identify: jobs in the field, common work settings, education or training routes, useful high-school classes, skills to practice now, and questions to research locally.

My pathway: Career area _____ Job I want to learn about _____ Training I may need _____ One person/program I can contact _____ My first next step _____.

Student: _____ Date: _____
