Kitchen Safety: Safe or Unsafe?

INDEPENDENT LIVING

HOW TO USE THIS ACTIVITY

- Read each situation. Student marks SAFE or UNSAFE and explains why. Review correct safety practice together.
- Use as a pre-cooking lesson before any hands-on food activity.

Situations: raw chicken on the same board as salad; washing hands before cooking; leaving a pan handle sticking over the edge; using oven mitts; walking away from hot oil; checking food before eating; putting leftovers away promptly; plugging an appliance in with wet hands.

My 5 kitchen safety rules: 1___ 2___ 3___ 4___ 5___.
