

TRANSITION TEAM ■

Laundry & Clothing Care Basics

INDEPENDENT LIVING

HOW TO USE THIS ACTIVITY

- Use clothing labels or sample labels. Students identify washing, drying, and care instructions.
- If machines are available, practice sorting and selecting a basic cycle with supervision.

Sort: lights/darks, towels, delicate items. Check pockets. Read labels. Use appropriate detergent amount. Do not overload. Move wet clothes promptly. Dry according to label. Fold/hang and put away.

Scenario: Red shirt with white clothes? Wet towel left in washer overnight? Sweater says 'lay flat to dry'? What should you do?
