

Grocery Shopping: Which Is Actually Cheaper?

Independent Living • unit price and real-world choices

FOR STAFF • 30-MINUTE SESSION

Purpose: Practice comparing package prices instead of automatically choosing the lowest sticker price.

Materials: Packet + calculator optional.

Easy flow: 5 min explain unit price • 15 min comparisons • 5 min budget challenge • 5 min reflection.

Price Matchups

Rice A: 2 lb for \$3.20 VS. Rice B: 5 lb for \$6.75
