Kitchen Measurement Match-Up

GAMES ACTIVITIES

HOW TO USE THIS ACTIVITY

- Cut apart the cards. Students match equivalent measurements. For hands-on practice, verify matches with measuring tools and water.
- Pairs can race, but accuracy comes before speed.

Match: 3 tsp $\leftrightarrow$ 1 Tbsp | 4 Tbsp $\leftrightarrow$ 1/4 cup | two 1/2 cups $\leftrightarrow$ 1 cup | two 1/4 cups $\leftrightarrow$ 1/2 cup | four 1/4 cups $\leftrightarrow$ 1 cup.

Bonus: If a recipe needs 1 1/2 cups, show two different ways to measure it.
