

# Baked Chicken

Visual Cooking Lab • large picture cues + short directions

## FOR STAFF • 30-MINUTE SESSION

**Purpose:** Practice following a picture-supported recipe safely and independently.

**Materials:** Ingredients, listed tools, printed guide.

**Easy flow:** 5 min preview • 15-20 min cook • 5 min cleanup/independence check.

## Ingredients + Tools

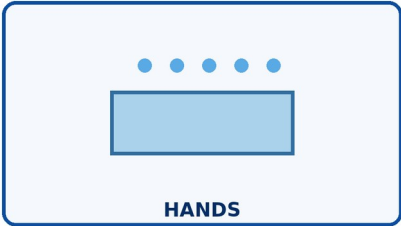

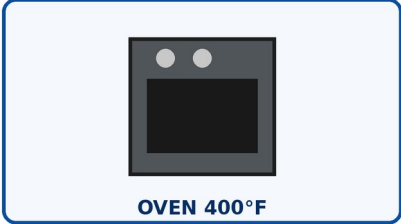

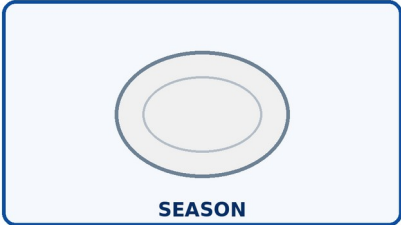

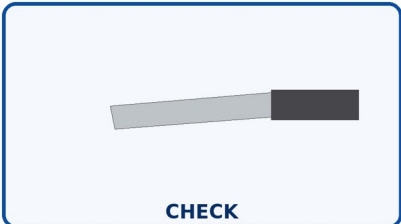

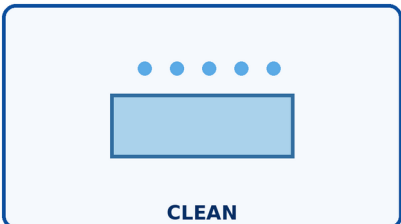

### INGREDIENTS

- ☐ Chicken pieces
- ☐ Oil
- ☐ Seasoning

### TOOLS

- ☐ Baking dish
- ☐ Tongs
- ☐ Oven mitt
- ☐ Food thermometer if available

## Follow the Pictures

|                                                                                                     |                                                                                       |
|-----------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
|  <p>HANDS</p>      | <b>STEP 1</b><br><b>Wash hands; keep raw chicken away from other foods.</b>           |
|  <p>OVEN 400°F</p> | <b>STEP 2</b><br><b>Preheat oven.</b>                                                 |
|  <p>SEASON</p>     | <b>STEP 3</b><br><b>Place chicken in dish and season.</b>                             |
|  <p>BAKE</p>      | <b>STEP 4</b><br><b>Bake until fully cooked.</b>                                      |
|  <p>CHECK</p>    | <b>STEP 5</b><br><b>Use a thermometer when available; poultry should reach 165°F.</b> |
|  <p>CLEAN</p>    | <b>STEP 6</b><br><b>Wash hands, tools, and surfaces that touched raw chicken.</b>     |

### Independence Check

☐ Did it myself   ☐ Needed a reminder   ☐ Needed help

**One step I can do more independently next time:**
